

PostDoc Position (f/m) in the project "Realizations of Rigid Graphs"

We are offering a PostDoc position (full-time, i.e., 40 hours/week) in the FWF-funded project "Realizations of Rigid Graphs". The project is affiliated with the Symbolic Computation Group at the Johann Radon Institute for Computational and Applied Mathematics (RICAM) of the Austrian Academy of Sciences, located in Linz, Austria.

We search for candidates with a PhD in mathematics or a closely related field. The project is devoted to rigidity theory combining methods from graph theory, combinatorics, symbolic computation and algebraic geometry. A strong background in any of these areas is expected whereas experience in rigidity theory is highly appreciated. The working language is English.

Applications including a scientific CV, a list of publications, a short research statement, and references for possible recommendation letters should be sent by e-mail to Dr. Georg Grasegger (georg.grasegger@ricam.oeaw.ac.at) by December 20, 2018. The successful candidate will be offered a research position for one year (with a potential extension of 2 years) with a gross salary of 3711,10 EUR per month (<u>FWF standard salaries</u>). The position will be vacant starting from January 2019. The successful candidate starts as soon as possible before June 2019. The Austrian Academy of Sciences is an equal opportunity employer.

RICAM is located on the campus of the Johannes Kepler University in Linz, a city with approximately 200,000 inhabitants. Linz is located on the Danube, close to the Austrian Alps and half-way between Vienna and Salzburg. Further information is available at: www.ricam.oeaw.ac.at
